Swapping a Title Border in a Project

All Electrical Designer Users

Electrical Designer has built in functionality to swap out a title border that has been used within a project. This can be changed in a number of ways.

To swap a title border for a specific type of drawing e.g. scheme.

Highlight your project in the Projects Manager

Select Drawings tab

Highlight the first schematic drawing that you wish to change

Sheet numb	er Type of drawing	Dates
2	Scheme	Creation 17/11/2005
		Modification 17/11/2005
Туре	POWER	Revisions Verification 17/11/2005
Manufacturer	ACERI	
Drawing number	2	Location LAYOUT
Verifier	ED	Zone CHASSIS
Description	Power circuits	
Title line 1	DOUBLE SENSE	Drawn ED
Title line 2	MOTOR	Modified SD
Title line 3	POWER	Approved A.NOTHER
Title line 4	CIRCUITS	
Drawing number 1	1	
Drawing number 2	3	
Titlebox lib	rary DIN Change	Prototype library DIN Change Prototype PR0T0DIN

Select the option *Change* to the right-hand side of Titlebox Library

Select the new title border from either your current symbol library e.g. BS or the generic library MONTA

Select Accept

and the following dialogue will be displayed:

ELECTRICAL DESIGNER
?
Do you want this new titlebox to all the drawings of Scheme type?
Yes No

Select Yes to change all schematics Select Accept

In order to see the new title border, you will need to go into each drawing. This can be achieved by selecting Process Drawings

Batch process of 9 drawings of the project DEMO
Only drawings pending annotations Reset the counters Reorganise databases
Switch on all layers ✓ Zoom extents
Reset elements Number elements
Reset wires Number wires
Reset terminals Number terminals
Update title box (UPS) Execute a script Save without analysing the drawings Plot drawings
Execute script at the end
Accept <u>C</u> ancel Help

Select the option Zoom Extents and then Accept

As the new title border may have different column and row widths, you will need to update the cross-referencing of the project

Select the option Analyse Cross References from the Projects Manager

For changing a title border for an entire project and all types of drawings, you can also use the Handle Drawings command available from the Drawings Browser.
