

Routing Tools

Travel Time distance

Activate the Travel time: click on the icon to activate the menu box. Click anywhere in the map to define where you would like to travel from. Enter you speed (in km or miles) and hours you wish to travel from the point and click ok. Cancel will close the tool.

The distance you are able to travel from the given values will be displayed on the map

You are able to roll your mouse over each of the numbered locations to reveal a dialogue box which displays the place, distance and crow flies information.
