

Revit Server Admin: Setting the authentication so that only the administrator has access

• Open the IIS Manager and browse to the RevitServerAdmin2016 directory:

sales@cadline.co.uk

cadline

Reference: July 2016 Guide by: Mark Lavers

Page **2** of **3**

- Open the Authentication Settings to:
 - o Disable Anonymous authentication
 - o Enable Windows authentication

Go back to the RevitServerAdmin2016 folder and select Authorization Rules

Guide by: Mark Lavers

Edit the listed Rule to specific users and enter your specified administrator account •

Edit Allow Authorization Rule	x
Allow access to this Web content to:	
O All users	
○ All anonymous users	
○ Specified roles or user groups:	
Example: Administrators	
Specified users:	
rvtadmin	
Example: User1, User2	
Apply this rule to specific verbs:	
Example: GET, POST	
OK Cancel	

- Select OK
- Now when you launch the Revit Server Admin site, you should be prompted for the login credentials

	Windows Security X
iexplore.ex Connecting to	e prvt-server.testdomain.local.
	rvtadmin
	Domain: TESTDOMAIN
	Remember my credentials
	OK Cancel
