## elecworks<sup>™</sup> Tips & Tricks

## **Electrical Content Portal**

If you have recently purchased elecworks or have downloaded the 2016 version, you will have noticed that there are no local content manufacturers parts installed as default. Furthermore, if you have upgrade to elecworks 2016, then you should visit the Electrical Content Portal in order to update your specific manufacturers part ranges. You can access the ECP through the link directly below:

## **Electrical Content Portal**

On selecting the link, you are greeted with the following dialogue. The authentication details are different from the login to the elecworks support pages so if this is the first time you have visited, you must click on *Register*

Register Forgot your password?	Enter					

Once registered and logged in, the following screen will be shown:

There are several tabs at the top of the page (highlighted)

Select the Catalogues tab and a list of manufacturers will be shown. On selecting a manufacturer the parts will be broken down into par ranges. These can be downloaded and installed as required.
