

How to install and register Cymap 2019

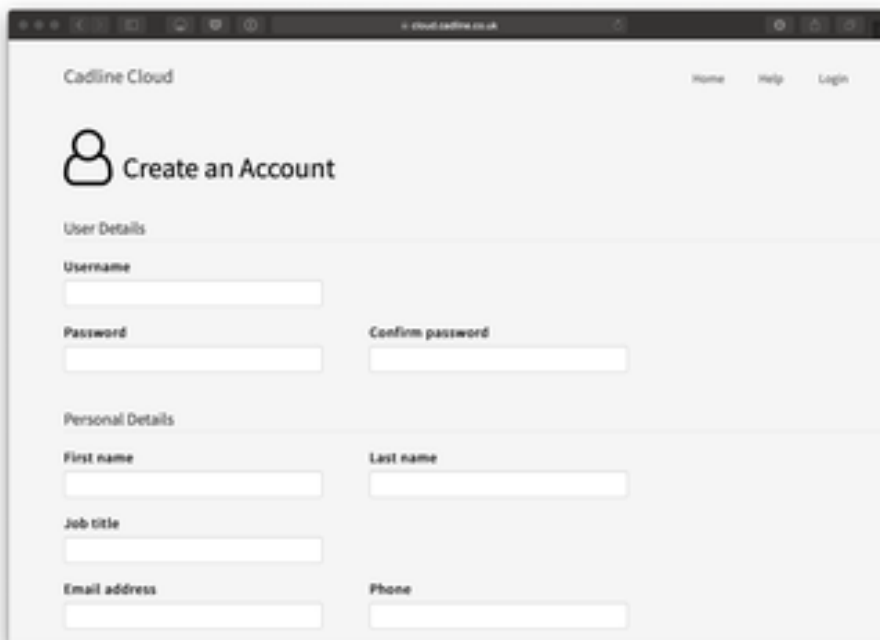

A guide for new and existing customers to explain how they can install and licence Cymap 2019.

Instructions

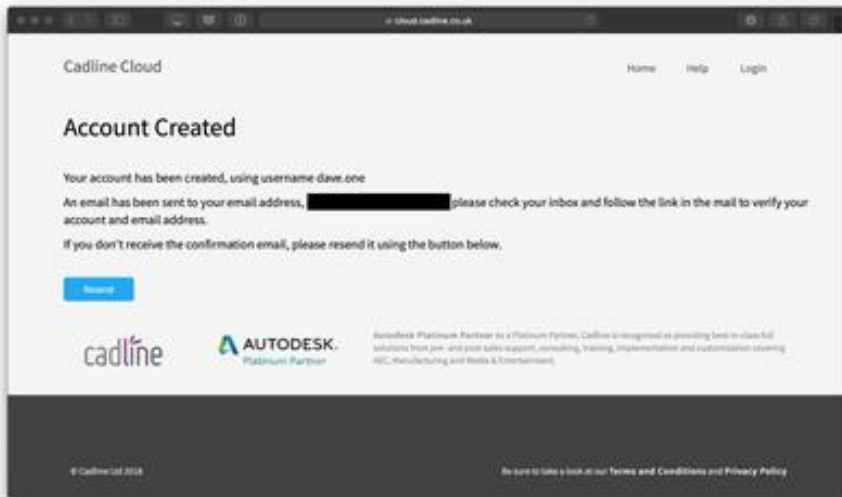

As an existing or new customer, you will receive an email invitation from Cadline.

After selecting "Create Account", enter your details as requested.

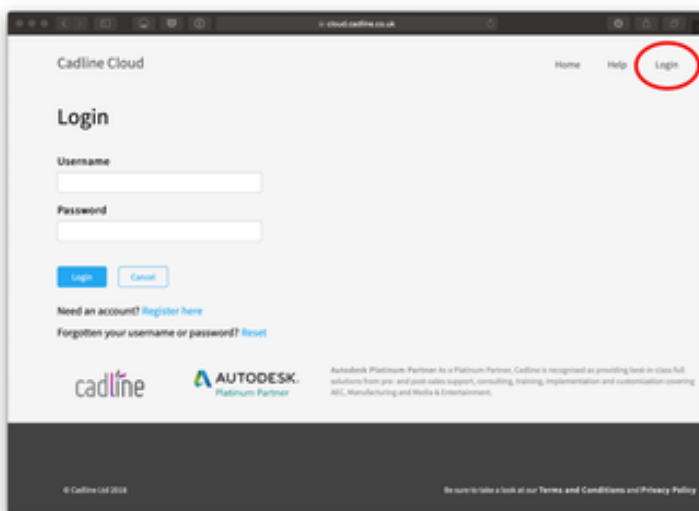

When completed, select "Save" and your new account will be confirmed.

You will now receive an email confirming your email address and requesting that you verify your account.

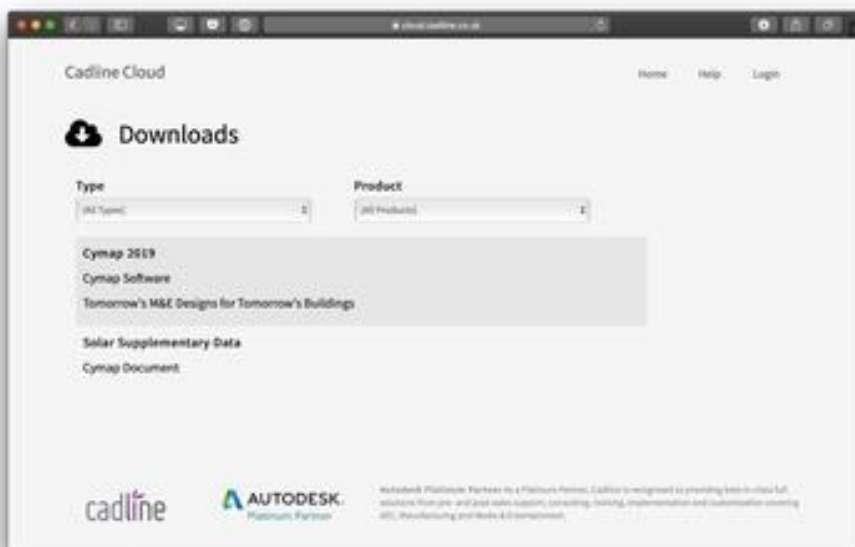

Once Verified, select "Login" from the top right of the screen, and enter your Username and Password.

You now have access to your account.

Click "here" to go to the download page.

Select "Cymap 2019" and then select "Download".

Launch the downloaded installer and follow the instructions.
